Welcome to 3830scores.com. This site is an expansion and replacement of the original 3830 score reporting forms site previously located at hornucopia.com/3830score/. Its purpose is to make it easier for contesters to share their claimed scores (score rumors) and comments immediately after a contest. Score submissions are posted to the 3830 Reflector (sponsored by contesting.com), as well as stored in the score rumors database (as they have been since February 2002). N7WA (n7wa at arrl.net) will continue to post summaries to the 3830 Reflector, as appropriate.

Score Forms

Links to the score reporting forms for current and recent contests are shown in the left navigation column. These forms are identical to the previous forms on the old site. The ability to define and save default values for form fields unlikely to change from contest to contest is available via the *Preferences* link found in the horizontal menu bar. So that the database can be kept up to date, you are encouraged to also use the forms to submit corrections to your original postings.

Score Summaries

Summaries of all submitted scores for current and recent contests are immediately available by clicking on the appropriate link at the top of this page. In addition historical summaries of past contests are available for major contests back to 2002 and for all contests back to 2007 via the *Contest Summaries* link. Over the next several months, summaries of all contests back to 2002 will also become available. Line scores, band/mode breakdowns and compilations of comments are easily accessible for any contest.

Search

To easily search the score rumors database for all postings associated with an operator's call sign or the call used, enter the call in the search box in the menu bar and click on *Search*.

Compare Scores

The scores for multiple combinations of calls used and contest editions (e.g. contest years) can be compared by clicking on the *Compare Scores* link that is available at both the summary and individual claimed score levels. This means that the results for the same call can be compared across multiple years or several calls can be compared for the same year.

Contest: 2015 CQ WW DX SSB CONTEST
Call: NV9L
Category: Multi-Single High Power
Operator(s): NV9L, WB9Z, K9GS, N6MZ, N9TK

Thank you for submitting a log in the 2015 CQ WW DX SSB Contest.

Your log checking report is below. We believe it is helpful for participants to receive information on how their log was scored.

Log checking details for CQ WW SSB 2015:
8,251 Logs total
4,861,315 QSOs total
4,049,144 (83.3%) QSO checked against another log
3,941,462 (97.3%) QSO checked good when checked against another log
64,296 (1.6%) Busted calls
13,921 (0.3%) Busted exchange
29,465 (0.7%) Not in log

Average Score Reduction for all logs: 10.8% (Median 7.4%)
Average Error Rate for all logs: 3.7%

Explanation of the report sections:

Summary - A summary of the log checking results and final score for your entry.

Results by Band - This is a band-by-band breakdown of the QSOs, points and multipliers for your entry.

Not In Log - These contacts were not found in the other station's log. QSO removed with additional penalty of 2x QSO points.

Incorrectly Copied - The call logged for these contacts was determined to be incorrect. QSO removed with additional penalty of 2x QSO points.

Incorrect Exchange Information - The information you copied does not match what was in the other station's log. The QSO was removed.

Band Change Violations (Multi-One or Multi-Two only) - These contacts violated the band change rules for the category. The QSO was removed.

Unique Calls Worked - These calls were not found in any other log. They have not been removed, but our experience indicates they are often the result of copying errors.

Lost Multipliers - This section lists the multipliers that were lost in your log due to callsign, exchange, or other copying errors.
-C indicates lost country and -Z indicates lost zone.

Multipliers by band - This section lists the zones and countries that were counted as multipliers in your log.

Stations Copying Your Exchange Incorrectly - This is a list of contacts where the station you worked copied your exchange incorrectly. You do not lose credit for these contacts. They are provided for your information.

Stations Copying Call Incorrectly - This is a list of all contacts we could identify where the station you worked copied your call incorrectly. You do not lose credit for these contacts. They are provided for your information. If you have many similar errors, you should concentrate on ways to send your call differently that may be easier for others to correctly copy.

***** Summary *****

3480-3423 = 57

```

3480 Claimed QSO before checking (does not include duplicates)
3423 Final   QSO after  checking reductions

 4,049,144 (83.3%) QSO checked against another log
 3,941,462 (97.3%) QSO checked good when checked against another log
 64,296 (1.6%) Busted calls
 13,921 (0.3%) Busted exchange
 29,465 (0.7%) Not in log

Average Score Reduction for all logs: 10.8% (Median 7.4%)
 Average Error Rate for all logs: 3.7%

```

5.7% Score reduction
1.6% Error Rate based on claimed and final qso counts
25 (0.7%) calls copied incorrectly
6 (0.2%) exchanges copied incorrectly
7 (0.2%) band change violations
19 (0.5%) not in log
38 (1.1%) duplicates (Removed without penalty)
10 (0.3%) calls unique to this log only (not removed)
    
```

57

$$\frac{\text{Errors}}{\text{Claimed QSOs - Dupes}} = \text{Error rate}$$

$$\frac{57}{3480} = 1.6\%$$

***** Results By Band *****

	Band	QSO	QPts	Zone	Cty	Mult
Claimed	160M	32	77	12	31	43
Final	160M	30	59	11	29	40

- Duplicate contacts are removed with no additional penalty.
- Contacts with an incorrectly received exchange are removed with no additional penalty.
- Call sign errors (bust) or call signs not in the other log (NIL) are removed and receive a penalty of two times the QSO point value for that contact.
- Contacts that do not meet the band change rules for multi-operator entries are removed with no additional penalty.
